## INTRODUCTION

---

Diligent Product Developer with 2+ year of experience in Full Stack Development. Having good knowledge and hands-on experience in Java 8, Spring-boot, Angular 2+, Git, Agile Methodology. Focused on creating clean, robust code and able to achieve targets while meeting standards for web design, user experience, usability, and speed. Motivated to learn new skills and technologies.

## TECHNICAL SKILLS:

---

- Frontend Technologies: **Angular, JavaScript, TypeScript, HTML, CSS**
- Backend Technologies: **Java, Spring boot, Microservices, SQL, Apache Tomcat**
- Databases: **PostgreSQL, MySQL, Redis**
- Version Control Systems: **Git, Gitlab, GitHub**
- SDLC: **Agile Methodology (Jira, Trello)**

## WORK EXPERIENCE:

---

### Netlink Softwares Pvt. Ltd.

October 2021 - Present

Associate Software Engineer

- Designed and developed microservices using Java and Spring Boot, making extensive use of **Java 8 Stream API** for advanced data processing, resulting in more efficient and performant code.
- Created **RESTful APIs** for seamless communication between **Angular**-based front-end applications and microservices, improving data exchange efficiency and speed.
- Integrated **Apache Kafka** for real-time data streaming, leading to improved data synchronization and reduced data latency.
- Managed and optimized databases such as **PostgreSQL, MySQL**, and **Microsoft SQL Server**, focusing on data integrity and query performance optimization.
- Utilized **Git** for version control and actively collaborated on **GitLab** and **GitHub** to ensure smooth code management and collaboration within the development team.
- Actively practiced **Agile methodologies**, participating in daily stand-up meetings, sprint planning, and sprint reviews to ensure project delivery aligned with business objectives.
- Collaborated closely with product owners and stakeholders to gather and refine requirements, ensuring that software development met business goals.
- Efficiently managed project tasks and issues using **Jira**, maintaining an organized and transparent project workflow.

### Netlink Softwares Pvt. Ltd.

Intern

July 2021 - October - 2021

- Designed and implemented responsive user interfaces using Angular components.
- Gained hands-on experience in front-end development with HTML, CSS, and TypeScript.
- Integrated **RESTful APIs** for data interaction in **Angular** applications.
- Worked within an Agile team, participating in sprint meetings and stand-ups.
- Gained exposure to diverse web development projects and adapted to different coding styles.

## PERSONAL DETAILS:

---

- **Strengths:** Self-motivated, Focused, Creative
- **Date of Birth:** 25/12/1998
- **Nationality:** Indian
- **Languages known:** English & Hindi
